Feature	Benefit
Device Agnostic – available on most popular handheld platforms; BlackBerry, Windows Mobile and Palm.	Single Investment in TimeKM™ Extend - Mobile protects the firm into the future regarding mobile platform changes. Also accommodates multiple mobile platforms in use at the same time.
Multiple Capture Methods: <ul style="list-style-type: none"> <li>▪ Jot it Down</li> <li>▪ Tag and Send</li> <li>▪ Remind Me *</li> </ul> <p style="text-align: right;">* BlackBerry Only</p>	Configurable user options for mobile time capture give choice and flexibility to professionals to match their work habits, resulting in higher participation and more revenue.
Intelligent Case / Shortcut Intelligent Case / Shortcut.	Allows a professional to use case/project names (corridor talk) in the capture process avoiding complex file and project numbering schemes, resulting in quicker capture and more revenue.
Case / Shortcut / connection to CRM information.	Provides intelligent and dynamic linking of CRM information to case / shortcut names, resulting in fewer keystrokes and quicker capture.
Increments in decimal / minutes.	Allows professional and/or firm to capture in either minute or decimal mode to accommodate back office system requirements.
Case / Shortcut and Quick Text synchronization.	Provides a synchronized case/shortcut and quick text list from the firm back office time entry system (TimeKM™ - Web), resulting in keystroke saving and quicker time capture with less effort.
Secured Encrypted Transport.	Additional encryption of time data over and above standards provided by mobile platform, resulting in higher levels of security (beyond e-mail).
Unicode compliant.	Allows firms with global reach to capture in any language including double byte languages.
Over the Air (OTA) or Mobile Server push deployment.	Centralized deployment with zero user touch allows quick and efficient deployment and upgrades.

*TimeKM™ - Mobile for BlackBerry is just a better way to docket. It gives me an additional opportunity to not lose time when I'm running from one thing to another.*
